

Studio 202 is a commercial photography rental studio located in beautiful Old San Juan, Puerto Rico. Housed on the second floor of a wonderfully restored Spanish colonial building, the studio's production area features five balconies that create a working daylight space. Close the blinds and take advantage of the 18' ceiling to optimally light your subjects. The space also features client and conference areas for your comfort. For its natural and architectural beauty, many location shoots are produced in the immediate area, making Studio 202 the perfect base for your production team.
